

DEPLOYMENT FIX INSTRUCTIONS

Issue Summary

The latest pricing changes are committed locally but not deployed to matalino.online due to Vercel CLI authentication expiry.

Status Check

- All changes committed (commit: 3884c35)
- Pricing sections working in development
- Live site shows old version
- Vercel CLI needs re-authentication

SOLUTION STEPS

Option 1: CLI Authentication & Deployment (Recommended)

1. Authenticate with Vercel CLI:

```
bash
cd /home/ubuntu/matalino-ai-website/app
export PATH=$PATH:/home/ubuntu/.npm-global/bin
vercel login --oob
```

2. Follow the authentication flow:

- Visit: <https://vercel.com/api/registration/login-with-github?mode=login&next=https%3A%2F%2Fvercel.com%2Fnotifications%2Fcli-login-oob>
- Login with your GitHub account
- Copy the verification code from browser
- Paste it in the CLI prompt

3. Force fresh deployment:

```
bash
vercel --prod --force --yes
```

4. Verify deployment:

- Check <https://matalino.online> for pricing sections
- Look for updated CSS/JS file names in page source

Option 2: Vercel Dashboard (Alternative)

1. Go to Vercel Dashboard:

- Visit: <https://vercel.com/dashboard>
- Login with your account

2. Find your project:

- Look for "matalino" project
- Project ID: prj_N0w1vi02qORMd83nXZaFHdlqAhJF

3. Force redeploy:

- Click on the project
- Go to “Deployments” tab
- Click “Redeploy” on latest commit (3884c35)
- Enable “Use existing Build Cache: NO” for fresh build

Verification Steps

After deployment, verify these changes are live:

1. Check for pricing content:

```
bash
curl -sSL "https://matalino.online?v=$(date +%s)" | grep -i "pricing"
```

2. Visual verification:

- Visit <https://matalino.online>
- Look for pricing sections
- Check that CSS/JS files have new hashes

3. Clear browser cache:

- Hard refresh (Ctrl+F5 or Cmd+Shift+R)
- Or use incognito/private browsing
